It's an ill wind that doesn't blow
now and again. Last year the Edmonson Bulletin became popular and famous because of their stand to as far as possible give complete details of the Brownlee-MacMillan trial. As a result, the Bulletin achieved the largest percentage in circulation gains in Canada.

The Ontario department of game and fisheries has contracted to purchase 2,500 Hungarian partridges from Alberta at one dollar a bird. Previous imports from England cost \$7.50 per pair, and the fowl failed to thrive. The Alberta birds are hardy and well able to stand the Ontario climate.

MEISNER SENTENCED TO FIFTEEN YEARS
W. R. HOWSON, LEADER OF PRO. LIBERAL PARTY FOR ALBERTA

London, Ont., Feb. 6.—David Meisner, Cincinnati bookmaker, was today sentenced to 15 years on each of three counts against him in connection with the kidnapping of John Labatt, wealthy London brewer. The sentence was to run concurrently.

A jury found him guilty and Mr. Justice G. F. McFarland imposed sentence. He was charged on two kidnapping counts and one of robbery with violence. There was no imposition of lashes.

The jury returned the verdict after little more than an hour's deliberation.

LOCAL GEOLOGIST WINS DISTINCTION

D. J. McNeil, who has been residing in Blairmore for the past year, left this morning for Princeton, New Jersey, for a three weeks' visit; on February 17 he will present himself to the geological department of Princeton University for the Doctorate Degree of geology.

During the summer of 1931 Mr. McNeil geologically mapped for the geological survey of Canada the Hillcrest coalfield. In 1932 he was assigned the same work in connection with the Blairmore coalfield. During the past year he has been doing consulting geological work in the Crows' Nest Pass district. The thesis prepared by Mr. McNeil in connection with his Ph.D. work, and which has been accepted by the faculty of Princeton University, consists of a detailed geological report on the Hillcrest, Frank, Bellevue, Maple Leaf and Byron Creek coal districts.

This work will be published in the near future in one of the current geological journals. Mr. McNeil belongs to the Association of Registered Professional Engineers of Alberta.

VERQUIN—MCLEAN

The marriage of Mrs. Gladys McLean, of Lundbreck, and Mr. Emile Verquin, of Cowley, was solemnized in a quiet ceremony in St. John's church on Friday evening, January 25th, by the Rev. W. R. Jeffcott. The attending witnesses were Miss Ennis, of Blairmore, and Mr. Jules Verquin, of Vieux, France. After a short honeymoon, Mr. and Mrs. Verquin expect to reside on their farm near Lundbreck—Pincher Creek Ecto.

OPPORTUNITY KNOCKS

The following ad. appearing in a paper in a neighboring town might be worth considering:

"I want a man to work on my farm. I don't give dancing lessons, and I have no piano. I can't serve steak three times a day, I do give three square meals a day, and a real bed and fair wages. If any man who knows a cow from a talking machine, can hear an alarm clock and get up at six o'clock, wants a job, I will agree not to treat him like one of the family, but a darned sight better."

FOR SOCIAL CREDIT

D. O. Wight, Liberal provincial nominee for the Cardston district, is also editor and publisher of the Cardston News, and has two hard jobs on his hands now, instead of one hard job. His position on Social Credit is given in an editorial: "What is my stand on Social Credit? It is just this—Social Credit offers the most reasonable and sensible solution yet studied by me. I have been a student of social credit for many months. For logic and reasonableness, I defy anyone to refute their fundamental arguments."

Pope Pius XI began the 14th year of his pontifical reign yesterday.

"BLAIRMORE" AT SEA

Port Ludlow, Wash., January 30, 1935.

Editor Blairmore Enterprise,

Blairmore, Alberta.

Dear Sir: I think that perhaps it

will be of general interest to the folks

of Blairmore to know that a shipping

firm in Victoria, B.C., has recently

purchased three old sailing vessels

that have long been idle in San Fran-

cisco. One of these old sailing ships

is one that has had a long and inter-

esting career on the high seas. Her

name was "Blairmore," but is now

"Star of England." She was built

early in the gay nineties, and was

under British registry. She has

served several owners in her time,

and finally found herself under the

Star and Stripes, where she contin-

ued to carry her cargoes to many

parts of the world, until the steam

ship displaced most of the wind-jam-

mers on the sea.

This old barque has had a particu-

lar interest to me, as I have often

wondered how she came to be given

the name Blairmore, and I am sure

that her records would give us the

accounts of many interesting voyages

to many strange lands.

I am sure that any Blairmore folks visiting in Victoria would be pleased to see the old ship and find her of real special interest. She has weathered many a stormy gale, and like her namesake in the Crows' Nest Pass will stand four-square to all the winds that blow.—ARTHUR BUCHAN.

[Note—Arthur Buchan will be remembered locally by many old friends for he was at one time, prior to 1914, employed with the McLaren Lumber Company here. In 1914 he joined the 192nd Battalion as a lieutenant].

Out of respect of the death of Mrs.

Proved best for CHILDREN'S COLDS

VICKS VAPORUB

Two generations of mothers have proved Vicks VapoRub the safe, dependable way to treat colds. Just as on throat and chest, VapoRub fights a cold direct—two ways at once!

Through the skin it acts direct like a poultice or plaster. At the same time medicated vapors are inhaled with every breath direct to the inflamed air-passages of head, throat and bronchial tubes.

This combination action loosens phlegm, eases the lungs, helps the membranes—eases difficult breathing—helps break congestion.

AVOIDS "DOsing"

With VapoRub, you avoid the risks of constant internal dosing—which so often upsets children's delicate digestions and lowers resistance when they are ill. Vicks VapoRub is used freely, and as often as needed, even on the youngest child.

THE TENDERFOOT

By

GEORGE B. RODNEY

Author of "The Coronado Trail", "The Canyon Trail", Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," said Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is linking up with them."

Dad Kane, desert rat and luckless prospector till now in returning to tell the Broken Spur he had grubstaked him, of his discovery of a rich gold mine, and showed samples of the ore. He sees Broken Spur men move in to put him out of business.

Dustin unexpectedly comes along and seeing them, stops and talks to them. The Broken Spur and Sod Springs dispute could be settled by marrying him, and Edith refuses his proposal with remarks that make Dustin furious. He insults Sod Springs, who promises to get him into prison.

Stone tells Crewe, his foreman, about his meeting with Dustin, and is warned that Dustin would kill him if he got him charged with robbery. Crewe goes to Sod Springs to send a telegram to Gerald Keene. While at Sodco an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men set out to burn the ranch. He sets out with Dad Kane to return the location of his gold discovery and appraise its value. Dad Kane shows Dustin the mineral samples of the rich ore he took from the mine.

"They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peyot Gregg, a drug addict, who, it is learned, has a secret. Stone, who did not know whether he was guilty or not, bury Kane and then return to the Broken Spur ranch.

Meanwhile at the Hotel Glass Carr, Crewe, Stone, a spic-and-span as to the meaning of entries in the notebook belonging to Dad Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by

THIS IS THE WAY TO HAPPINESS

There's nothing—absolutely nothing—to take the place of perfect health as the foundation of a happy life. And no better way for every one to get it than to turn to that famous tonic—Wincaris. It is the purest of fine wine with all the valuable properties of the 2½ lbs. of grapes which go into its making, plus the strengthening elements of beef and guaranteed vitamin malt extracts.

From the first glass of Wincaris you will feel more "vigor" stealing through your veins. You will sleep more soundly, wake more refreshed. In a few days you will have the well-irrigated body of your former half-well state. You will go through the most strenuous day at the top of your strength.

Twenty thousand doctors have recommended Wincaris for nervous disorder, anaemia, debility, and all run-down conditions. Start taking Wincaris today. Your druggist sells Wincaris. Sales Agents: Harold F. Ritchie & Co. Ltd., Toronto.

Edith Carr, rides out to Red Water to test out his theory.
(Next Go On With The Story)

CHAPTER X—Continued

"It's his 'glory hole,'" he said. "He made a cut in the hill, I suppose he picked up a vein of ore along the hillsides and followed it till it went into the hill. Then he dug after it and he got . . . This."

He turned the specimens of ore over and over in his hands and his eyes took on a curious look.

"My Lord," he said softly. "Then again . . . 'My Lord! It isn't possible . . .'"

There was that in his voice that carried conviction to her, too, and she seized his arm in a frenzied clutch.

"What is it?" she asked. "Oh, what is it?"

" . . . I'm not quite sure. I'm no mineralogist but . . . It looks like the real thing, Edith. Any assayer can tell us. It looks to me as if our friend Kane has found a darned good vein of gold on the Hour-glass land. At least, we'd better pray it's on the Hour-glass. . . . I've seen a lot of ore in Arizona and California and I'm sure it's right."

"Oh . . . " Words failed her for a minute. "Then it will put Hour-glass on its feet . . ."

"Yes. If we're right but . . . Edith . . . I'll be much wiser to say not a word about it till we find out. I can send them samples off and have them assayed. When we have the assayer's report it will be time to tell your father. You know the effect a disappointment might have on him . . ."

Her eyes filled as she glanced at him. So, too, knew old Joe Carr's weakness! Yet . . . How decently he covered his knowledge! She was suddenly glad that she could trust him.

"I'll do exactly as you advise," she said quietly, "but it'll be all that I can do to keep it secret. We'll not say a word of what we've found."

"Not till we have got the assayer's report and, most important of all, we have found out about old man Kane. You see it is sure that Kane and Dustin are partners. I'm not very versed in mining law but I'm under the impression that any man who finds a vein of ore can follow it even though that belongs to some one else."

If Kane and Dustin both know of this find, it means trouble . . . unless we can get in ahead of them. Let's get back at once."

They got their ponies and headed back for the Hour-glass.

CHAPTER XI

A sudden word from Stone made Edith check her horse. He was bending low on the near side of his horse and was studying the soft sandy soil. At her unspoken question he pointed to the trail.

"Faceted burrow and ponies have been along here not very long ago," he said. "How do I know?"

He laughed a little. "No use holding out on you. I know. Can't you see that nigger-head cactus's been chewed? Nothing can eat that but a horse. See that soft soil over there? Some animal has rolled there. I'm just guessing . . . Wait! Let's follow the tracks. They don't seem to leave the trail very much."

"Here's old Kane's fire," he said.

"It hasn't been out very long. How do I know? Because if it had been out very long the wind would have drifted sand over the ashes. There are none . . . No sands I mean. What's that . . . ?"

He stood at gaze staring at a great buzzard that was crow-hawking near the fire. He threw a rock at it and the ungraciously bird hopped off among the low scrub. He dropped his reins and hurried across the flat and saw the reason for the bird's actions—in the remains of a piece of bacon rind that lay before him. It had been dragged from the fire by the buzzard seeking offal. Stone picked it up and carried it back to the fire.

"There's a sample of the same kind of rock you found in the cut in the hillsides," said Edith quickly. She pointed to a lump of rock lying by the fire. Stone picked it up and examined it curiously. It was stained along one side with a curious brownish stain. He paid no attention to that stain but dropped the rock in his pocket when his eye was caught by certain other things on the ground. While Edith was looking about her for other things, Stone carefully swept up certain odds and ends that lay half-hidden by the sands. Three cigarette butts were there and a green-and-red paper torn from a package of foreign make. Stone considered them, swept them into a heap and thrust them into his pocket.

"We may as well get on," he said swinging into saddle. "There's no

Blairmore, Alta., Thur., Feb. 7, 1935.

THE PASS EIGHTEEN YEARS AGO
(From The Enterprise, 1917)

March 2.—John F. Wilson, former resident of Coleman and Blairmore, passed away suddenly this week at Winter Harbor, Vancouver Island.

Complaints are coming to Ottawa against the regulation which forbids women, girls and children under 12 to cross the Atlantic.

March 9.—Considerable credence is given to the rumor that the Great Northern Railway are about to take over and operate the mines and coke ovens at Police Flats and Passavant, and that John R. MacDonald, until recently manager of the Franco-Canadian Collieries' mines at Frank, would be manager of the G.N.R. operations.

Private Peat and Trooper Jerrett will address a public gathering here on the 16th.

Word has been received from France, stating that Gerald Gardner and William Barnes, both of this district, had been killed in action.

March 16.—A Crossfield farmer paid \$11,600 for a Hereford bull at Edmonton this week.

Misses C. McLeod and Katie Archibald have accepted positions in the general office of the West Canadian Colonies.

Figures show that Blairmore is contributing a larger amount per capita to Patriotic and Red Cross funds than any other community in Canada.

Dr. R. K. Lillie is spending a few days in Seattle and Spokane, taking in the big hockey games between Canadiens and Seattle.

Money actually paid in by Canadian people to the Patriotic Fund passed the \$20,000,000 mark during February.

The Blairmore Bachelors and Old Maids will give a ball in the opera house on April the 10th. No age limit.

March 23.—The marriage of Private Guy Charles Winstanley and Miss Lillian Thomas took place in Calgary on Monday.

The war is now costing Great Britain six million dollars a day.

Mr. and Mrs. W. E. Cooper left this week for their old home in Cobourg, Ontario, where they will be in future reside.

March 30.—The boys of the Frank Military hospital will circulate Volume 1, No. 1 of their new magazine, Frankness from Frank, on April the 1st. The book is being printed at The Enterprise office and will be published monthly.

The anniversary of the union of the Presbyterian and Baptist congregations of Blairmore will be celebrated at Central United church on Thursday.

A new daughter has just arrived at the home of Mr. and Mrs. Fred Chappell at Bellevue.

April 6.—A terrific explosion occurred in No. 3 mine at Coal Creek last night. Thirty-five miners were killed.

Word has been received that Private A. E. Petts, of Bellevue, has been killed in action. He was a member of Bellevue I.O.O.F. lodge.

The three-months-old daughter of Mr. and Mrs. Milton Robinson died at Cowley on Sunday morning of whooping cough.

A new daughter arrived at the home of Mr. and Mrs. E. Hindle on Thursday last.

Doc Lillie is this week sporting a brand new Chevrolet roadster. Doc is opening up dental parlors in the Peacock block. He will also have offices at Coleman, Bellevue and Hillcrest.

SYDNEY TO CELEBRATE

The city of Sydney, Cape Breton, will celebrate the 150th anniversary of its founding during the period July 24th and August the 4th of this year. It is many years since "Sydney By The Sea" has become irresistible to thousands of Canadian and American tourists, who come and go each successive year, finding new and unexpected beauty amidst the glens, valleys, hidden nooks and numerous lakes which surround that city, only wanting to be enjoyed by the entranced visitor.

For the big celebration, it is expected His Excellency the Governor-General and Lady Bessborough will be present.

It is interesting to note that the present mayor is Christian-named Sydney—Sydney E. Muggah.

Colonel Joseph Frederick Waller DesBarres, the founder of Sydney, was born in 1722. Having selected the army as his profession, he entered the 60th Regiment. In 1756, when occupying the position of Lieutenant, he was sent to America. At the second siege of Louisburg, he so distinguished himself by his bravery and engineering skill that General Wolfe specially mentioned him to the King, as a result of which honor he was ordered to accompany that general as engineer on the famous expedition against Quebec. When Wolfe received his death wound upon the heights of Abraham, DesBarres was just reporting to him an order he had executed. He continued to serve in Canada for the two succeeding years, and in 1751 went to Nova Scotia to prepare plans and estimates for fortifying the harbor of Halifax.

Official statistics show only 11.4 per cent of the people of Alberta own motor cars, and this relatively small percentage paid \$15.05 out of every \$100 collected by the provincial treasurer in 1933 in two taxes alone—gasoline and registrations, in addition to paying their share of all other imports, including Dominion customs' levies, etc., at the time they purchased their machine.

Speaking to a Nanton audience last week, Gordon Walker, M.L.A., stated that "whereas Major Douglas was most emphatic that social credit could not be put in effect in Alberta as a province, but was only workable when put in effect over a country that had complete control of its monetary system, therefore to work it must be put in effect all over the Dominion. He said that even if it were possible to issue social credit money, it would mean that the people's valuable services, DesBarres was in 1754 appointed Lieutenant-Governor of the Island, with, as he himself states, "the additional privilege of this. This would mean that there would be too much purchasing power and would knock values out of balance. At the same meeting, Ex-Premier Brownlie stated that, after reading extensively from works of Major Douglas, in which authority on finance stated most emphatically that the Douglas system of Social Credit could not operate successfully, he was satisfied Mr. Aberhart's system had two fallacies. The first was that social credit money, not being legal tender, no person could be compelled to take it in payment of a debt for goods. The second was that it was too cumbersome and would slow down the doing of business to such an extent that the whole monetary system would be thrown into disruption, and that any government that put such a policy in force could not stay in power more than a few weeks.

The first settler made his appearance in what is now Sydney in May, 1784, and later 3,000 United Empire Loyalists were attracted from the resulting colonies to the south.

DeBarres died at Poplar Grove, Halifax, October 27th, 1824, at the good old age of 102 years and eleven months.

The first settler made his appearance in what is now Sydney in May, 1784, and later 3,000 United Empire Loyalists were attracted from the resulting colonies to the south.

PLOWS UP INDIAN PEMICAN

Six sacks of pemican, thought to have been buried as a food reserve by Indians at least 60 years ago, were dug up near Irma, Alta., during the past season by Eldon Fenton. The incident recalls a similar discovery some months ago near Crossfield. Each was made of buffalo hide and weighed about five pounds. They were cached in a hole in the prairie north of Grattan coulee, famed as a buffalo run in the days when the herds roamed the prairies and were hunted. Mr. Fenton had brushed about the hole, and in breaking the virgin soil in a district first home-steaded 30 years ago, the plow turned up the sacks. Breaking one open with a pick-axe, he found the meat in the centre soft and apparently well preserved. Chewing some of it, Mr. Fenton said he found it tasty, having been preserved with wild cherries, which showed red and the stones of which he found therein. As the buffalo were practically extinct in 1879, it is thought this cache must have been placed some years before that. The find was made 18 miles from the present national buffalo park.

We, too, are getting rather anxious about that new money the Bank of Canada is going to issue. In the meantime we will take any of the old style currency that legitimately comes our way.

PLOWS UP INDIAN PEMICAN

Six sacks of pemican, thought to have been buried as a food reserve by Indians at least 60 years ago, were dug up near Irma, Alta., during the past season by Eldon Fenton. The incident recalls a similar discovery some months ago near Crossfield. Each was made of buffalo hide and weighed about five pounds. They were cached in a hole in the prairie north of Grattan coulee, famed as a buffalo run in the days when the herds roamed the prairies and were hunted. Mr. Fenton had brushed about the hole, and in breaking the virgin soil in a district first home-steaded 30 years ago, the plow turned up the sacks. Breaking one open with a pick-axe, he found the meat in the centre soft and apparently well preserved. Chewing some of it, Mr. Fenton said he found it tasty, having been preserved with wild cherries, which showed red and the stones of which he found therein. As the buffalo were practically extinct in 1879, it is thought this cache must have been placed some years before that. The find was made 18 miles from the present national buffalo park.

We, too, are getting rather anxious about that new money the Bank of Canada is going to issue. In the meantime we will take any of the old style currency that legitimately comes our way.

CURLING PHILOSOPHY

Inside the clubroom at the rink
Are benches in a row,
Where fellows sit to watch the games
While wreaths of smoke they blow;
And if you really want to learn
The fine points of the play,
Don't shoot your rocks, just stay inside.
And listen what they say.

So light your pipe and take a seat
Where it is warm and nice,
Where better games are always curled
Than out upon the ice,
For soon you'll hear: He's narrow
sure

He's coming down too hard
No, no, don't sweep—just let it go,
He's going to get the guard.

Say! Watch that guy, the twists he makes

In his delivery—

He'll hit himself into a knot

If he should draw the tee.

He's wide—he's slow—oh, let it hog;

He never got the broom.

There's no excuse to miss that shot,

He sure had lots of room.

Now what's he playing? that shot for?

What can he be about?

He ought to have a runnin' shot.

And take that rock right out.

He'll never get it with that ice—

Well! look at what he struck,

He got it after all, but then

He had a lotta luck.

But when these men are called to play

These curlers skilled and wise,

They make the very same mistakes

As those they criticize.

They find it takes but little skill

To dissipate advice.

And play a scientific game

When they are off the ice.

So as we pass along life's way,

And as we hear men talk,

We're always skillful when we throw

Bright Stories
about Wine

THE PRIDE OF THE CITIES

Writing in another place on another subject some time ago we said something which prompted a reader to remind us that, while it was fashionable to regard Kipling as a second-rate poet, it was not possible to refrain from quoting him. We suppose he is the most quoted of living poets, and something we heard at Christmas over the British Empire broadcast makes it advisable to repeat a couple of lines from his Song of the Cities:

"The cities are full of pride,
Challenging each to each—"

• We could proceed except for the fear of error, and we may say that, in newspaper offices and wineries, it is a cardinal sin to misquote the Bible, Shakespeare or Kipling. The theory is that, if we do, we shall be exposed as incompetent, if not indeed illiterate.

• It was the challenge from South Africa that we noted. It was said that there the Commonwealth boasted a winery with a capacity of 100,000 gallons a year. We were somewhat staggered and wondered if there had not been some ghastly error. If South Africa can boast of 100,000 gallons, the Bright People can claim 4,000,000 gallons. We do not suggest that the better the wine is, the more of it is made. It gives us, however, the opportunity of noting for what it is worth, that the largest winery in the world is in Canada, and more specifically in Ontario.

District News

From Our Own Correspondents

BELLEVUE HAPPENINGS

Mrs. Forest, of Calgary, spent the week end at the home of Mrs. J. D. McDonald.

W. Duncan, accompanied by several of the boys, motored to Lethbridge on Thursday to witness the hockey game between the Medicine Hat Monarchs and the Lethbridge Maple Leafs.

J. Price left for Edmonton the early part of the week to attend the school trustees convention.

The death occurred at the local hospital on Sunday last of Frank Kucer, of Frank. Mr. Kucer sustained injuries in a mine accident on Friday. Funeral took place from the home in Frank on Tuesday afternoon, and the remains were laid to rest in the Blairmore cemetery. Rev. J. Wood officiating. Mr. Kucer is survived by his wife and two children.

Robert Livett, president of District 18, United Mine Workers of America, was down from Calgary this week.

Mrs. E. C. Cranston entertained a

number of friends at her home on Monday evening.

Mrs. Williams spoke to about forty Guide and Brownie leaders in the United church parlor on Friday afternoon and evening. There were quite a number from Coleman in attendance.

Mrs. C. Emmerson is confined to her home through illness.

Mrs. and Mrs. H. Kaye entertained a number of friends at their home on Saturday evening.

Mrs. Mildred Matkin, who has been in poor health for some time, left last week for Calgary. Mrs. Matkin is being relieved at the local hospital by Miss Price, of Coleman.

Mrs. W. Alexander entertained a number of friends at her home on Tuesday evening.

The Ladies' Aid were hostesses to a number of their friends in the United church parlor on Monday evening.

The third annual "Babbie" Burns' banquet was held in the I.O.O.F. hall on Friday evening. There were about 150 present, all of whom acclaimed this the best time ever.

The large gathering was called to order by Mr. John Kerr, president of the Caledonian Society, who asked Rev. J. Wood to say "grace", after which the large crowd did justice to the well laden table of good things to eat.

The "haggis" were introduced by Mr. William Kerr, assisted by Piper Peter, of Hillcrest. After supper, the usual after-dinner speeches were made and responded to by various prominent men. The programme was interspersed with songs, recitations, etc.

The latter part of the evening was given over to old-time Scotch dances, and concluded with the singing of "Auld Lang Syne."

An import meeting of the U.M.W. of A. was held in the mission hall on Monday evening.

HILLCREST HAPPENINGS

The annual school district ratepayers' meeting was held in the Union hall on Monday evening. P. Hagger acted as chairman. The following were nominated for trustees: J. McDonald, F. Balkwill, G. Rhys, S. Douglas and R. Gardiner. Election takes place on Monday next.

Mrs. Lillian Rose left on Monday for Edmonton, where she is attending the annual Trustees Association convention.

J. McDade is progressing favorably from injuries sustained in the mine last week.

G. E. Cruickshank, M.L.A., left Tuesday for Edmonton, where he will attend the spring session of the legislature.

A lantern-slide lecture, entitled "Across Canada," was given by Mr. A. Chrysler in the United church on Tuesday evening before a large audience.

James Marshall, who is studying music in Calgary, paid a short visit to his home on Tuesday.

Rees Richards has been confined to his home through illness for the past two weeks.

Mrs. D. McNeill, of Blairmore, is visiting at the home of her mother, Mrs. P. Salt.

COWLEY HAPPENINGS

A whist drive, sponsored by the Roman Catholic church, was held at the home of Rev. Father O'Dea on Friday night with a large crowd attending. Ten tables were at play, court whist being the order of the evening. The ladies' prizes were won by Mrs. Shelia Fortier and Mrs. Grace Lote, while the gents' prizes went to J. F. Lote and G. W. Penn. The lucky prize was awarded to B. Hagel. After expenses were met, around eleven dollars was netted, to be added to the church fund.

Mrs. Percy Dennis and Mrs. Glen Bowerman are both on the sick list in St. Michael's hospital, Pincher Creek. Both are reported getting on favorably, we are glad to say.

Word has been received from Lebridge of the birth of a daughter to Mr. and Mrs. Jimmie Bickell. Mr. and Mrs. Bickell resided in this district for a few years recently, and this bit of news will be hailed with joy by many friends here.

Mr. and Mrs. Leo Bourassa and Mrs. Hector Lemire made a flying trip to Calgary and return by motor on Tuesday.

The Cowley Girls' Club are staging a novelty dance in Wilson's hall here on Friday, February 8th.

The Home Helpers held their monthly meeting at the home of Mrs. F. A. Tustian on Thursday night.

An interdrive, sponsored by the Lundbreck Girl Guides, was held in the Lundbreck community hall on Wednesday evening.

PACIFIC LINER

FULLY EQUIPPED

Vancouver, B.C.—The passenger ship "Prince Robert", which the Canadian National Steamships will take place in service this summer for a series of 11-day cruises to Alaska, in addition to the regular service, enjoys the distinction of being the first in west coast service to be equipped with a dial telephone system.

An intercommunication system for all parts of the ship is provided by the dial equipment and a passenger in his stateroom may dial through to any one of 200 telephones on the vessel.

Forty rooms are equipped with monophone sets and all first class cabins have telephone jacks to which portable phones may be connected. Because of her telephone wiring an extensive public address system is made possible in the public rooms. Thus not only entertainment is provided but it is also possible to announce points of interest enroute and inform passengers of the proximity of the next port of call.

The "Prince Robert" makes her first cruise trip on June 28, and her itin-

CONTAINS NO ALUM—This statement on every tin is your guarantee that Magic Baking Powder is free from alum or any harmful ingredient.

Made in Canada

Be Self-Reliant

One of the most deplorable results of the world depression of the past five years, and especially unfortunate in effect, is that the depression has become a memory, the workers now the morale of many people who for years have been unemployed. Unable to obtain employment anywhere, forced to accept government and municipal assistance, and with no immediate prospect of any change in the situation, the temptation to give up, to throw up their hands, abandon self-respect, to help themselves, and to do nothing in despair or idly—despair—indifference—despair—too strong a name for people.

Enforced idleness, living without working and doing so at the expense of the State, has apparently convinced some people that it is no longer necessary that they should work even when employment can be obtained. Such people now have the attitude that they do not owe anything to the State, but that the State having provided for them when work could not be obtained, the State can just continue going on providing for them for their actual necessities of life. When employment is offered to this type of individual, he prefers to compare the wage he would receive in exchange for his labor with the amount of his relief quota while unemployed, and decides that the increase in the amount he will receive does not compensate him for the fact that he will be required to work for it. He prefers idleness and relief.

At all times there have been men and women of this type, but their number has greatly increased during the past five years. Such people now look upon government as a means of maintaining their idleness, not in the direction of helping themselves, but to organize in groups to bring pressure upon governments to enlarge the distribution of relief, the cost of the same to be paid, of course, by those who do work and are willing to work.

It is not in the morale of so many people is, let it be repeated, one of the most deplorable and most sinister effects of the world depression. It has not demoralized the vast majority of people who have been forced against their will to accept government assistance in these times, nor has it to any great extent affected those who can trace their difficulties to circumstances which are not of their own making, but to the control of others. But there has been a great loss of self-respect, and the spirit of self-reliance, so among young people in their late teens and early twenties who, above all classes, should be most self-reliant. The stronger characters are not affected or will rise above the temptations of the moment, but the weaker ones show a marked tendency to drift with the tide, rather than to exert themselves and battle the waves of adversity until the tide does turn in their favor.

No useful purpose is served by painting a gloomy and discouraging picture unless it can be used to point a moral and teach a lesson. And it is the duty of those who realize the existing tendency, and who appreciate its dangers, both present and future, to use the whole weight of their experience and influence into the scale to maintain and renew the spirit of self-reliance, to teach the beauty of courage and the ugliness of despair. Clergymen, teachers, parents, all our many worthwhile organizations have a very important responsibility, and duty, to discharge in this connection. Their responsibility is greater now than ever before.

It is the duty and responsibility of all to accute the self-reliant idea in the minds of people that in its only useful and growing sense, life is a struggle. We learn to walk not by being carried, but by painstakingly making the effort to walk. So long as a young child is carried, it will never learn to walk, and until it does walk it will remain weak. Self-reliance must be taught throughout life, or life will be a tragedy for those who have failed to learn.

We rightly pray "Lead not into temptation," because temptation should be avoided, but temptation comes nevertheless in every moment and activity of life. So let us not further pray, "But deliver us from evil." Strength comes from offering resistance, but those who would protect us against all hazards and the pitfalls of inexperience merely enfeebles rather than strengthens us.

So long as the majority continued for government aid to those who cannot help themselves because of causes beyond their control, such government must be provided. No sane person thinks otherwise. But it should be the ambition of every man and woman to get along with a minimum of such aid and rely on their own efforts to the fullest possible extent while looking forward to the day when they can joyfully surrender all such aid and stand again on their own feet and face the world with courage in full reliance upon their own initiative and powers.

The Largest Carillon

At Bourville, England, the carillon installed in the tower of the village school has now become the largest in the world. The bells originally numbered 22, but a local family of distinction have made gifts of bells from time to time until the total has reached 48. The largest bell weighs over three tons, the smallest 12 pounds.

Job had patience—but he never had to wait six years for a job.

It takes an idle man to tell others just how a thing ought to be done.

PUBLIC NOTICE TO POULTRY PRODUCERS

PUBLIC NOTICE to Poultry Producers is hereby given that the Manitoba Poultry Marketing Scheme, the Saskatchewan Poultry Marketing Scheme and the Alberta Poultry Marketing Scheme submitted to and accepted by the Government of the Poultry Marketing Board on January 12, 1935, under the provisions of the National Poultry Marketing Act, will be voted on by the Poultry Producers of these Provinces on February 16th, to 3rd inclusive. Please note the following:

(1) Only producers who own or control a flock of more than 25 poultry are entitled to vote.

(2) Forms for registration and voting may be obtained from your local Postmaster by writing to the Poultry Marketing Board.

(3) Before completing your Registration Form and Ballot read carefully the instructions enclosed with them in the envelope which you will obtain from your Postmaster.

(4) Each voter is entitled to one ballot on which you are voting. A copy of the scheme is enclosed in your envelope.

(5) The return envelope for enclosing your completed Registration Form and Ballot should be addressed to the Poultry Marketing Board, Ottawa, Ontario, to arrive not later than February 23rd. No postage stamps are required.

(6) Each voter has the right to have their ballot counted and to change the vote of any producer whose name appears on the ballot. This right, which is exercised by at least two producers and mailed to the Returning Officer at Winnipeg, Manitoba, on or before February 23rd.

Dated at Ottawa this 22nd day of January, 1935.

R. WEIR,
Dominion Minister of Agriculture.

Treasures At Windsor Castle

Bibles Belonging To General Gordon And Kitchener Carefully Preserved

The corridors of Windsor Castle are hung with magnificent pictures, but in a conspicuous place is a crystal casket, resting on a white silk cushion. Inside the casket can be seen a worn, shabby little Bible, and one wonders how it came there. It is the Bible which belonged to General Gordon, and was carried by him all through the long siege of Khartoum. After the hero's death, the sacred volume was given to Queen Victoria by his sister; and it has been preserved ever since in the manner described. Not far away is a Bible which belonged to Lord Kitchener. This is, of course, a comparatively recent addition to the treasures of the King's Berkshire home.

In the armoury is a morsel of lead worth nothing, but priceless. It is a lead absolutely unique, being the bullet which wounded Nelson at the Battle of Trafalgar. Another memento of Britain's great naval hero is his bust, which is supported by a pedestal made out of part of the Victory's mizzenmast. The marks of French shot can still be clearly seen on this historic piece of wood.

Canadian Scientist Honored

Dr. Gussow Elected President Of American Phyto-Pathological Society

A distinctive honor has just been conferred on Dr. H. T. Gussow, of Ottawa, Dominion Botanist, Experimental Farms, by his unanimous election to the presidency of the American Phyto-Pathological Society. The annual meeting was held in Pittsburgh, Pa., a few days ago. The society was organized in 1909 and has about 600 members, among whom are the leading plant pathologists and mycological researchers in Canada and the United States. It is the only society of its kind in North America and is one of the most notable throughout the world, among those which scientifically study agriculture. Dr. Gussow is a charter member and his written and oral contributions to the society and to agriculture generally are considered as particularly valuable. He is regarded as one of the outstanding authorities on botanical science.

Powdered Whey

New Treatment Found For High Blood Pressure

How a new type of treatment for high blood pressure and tuberculosis came out of a chicken feed trough was disclosed by Dr. L. L. Stanley, San Quentin prison physician.

Seven years ago Dr. Stanley and Dr. Jau Dos Ball, San Francisco physician, head poultrymen at Petaluma, an egg production centre, were overcoming ailments of their flocks with powdered whey. They investigated and upon noting the results decided powdered whey might be good for men as well as for chickens.

Dr. Stanley said powdered whey had been used with success to lower abnormal blood pressure in San Quentin prisoners and to build up the bodies of men afflicted with tuberculosis.

"The results were very gratifying," said the slight, gray-haired prison doctor.

Trying Experiment

Marconi To Test Television Between Italy And United States

A television experiment between Italy and the United States is to be conducted in a few months' time by Signor Marconi according to an announcement made by the famous inventor when he spoke to the United States at the inauguration of a new Italian radio station. He said that he would show his listeners by television the apparatus he had used for his recent experiments during which he navigated a ship by wireless.

New Service For Dogs

Word comes from New York of the establishment of a "Daily Dog Walking Service Company." The proposed charges would be \$5 for one walk a day a month; \$8 for two, and \$12 for three, with Sundays excluded. This opens up an avenue of happy release for many previously harassed husbands, especially of the apartment variety.

We reprove faults in others which are different from our own.

It is far better to be bent on economy than broke on extravagance.

W. N. U. 2084

Longest Railway Bridge

Africa Spent Ten Million On Structure Over Zambezi River

Africa with its Victoria Falls possesses a greater fall of water, so far as height is concerned, than Niagara, and now the dark continent is setting claim to having the longest railway bridge in the world. It is located over the Zambezi river and is the last link in a chain providing Nyasaland and Portuguese East Africa with railroad transportation from Lake Nyasa to the east coast port of Beira, 520 miles distant. It cost \$10,000,000 and took two and a half years to build.

A fleet of flat-bottomed river steamers has been conveying passengers and towing barges and freight across the Zambezi from one railhead to the other, but considerable delay and expense have been involved.

The length of the new bridge is 12,064 feet, or a little more than two miles—a few feet longer than the entire length of New York's George Washington Bridge. It has thirty-three spans that rest on concrete piers sunk 120 feet below the surface of the river.—St. Thomas Times-Journal.

Machine Work Accurate

Best Of Hand Work Compared Unfavorably With It

Praises are often sung concerning the marvels of handicraft, but, considering of art apart, it must be admitted that for accuracy and precision the best of handwork compares very unfavorably with the possibilities of machine production. Hand engravers pride themselves upon being able to engrave the Lord's Prayer upon a five cent piece. They would, however, without hesitation deny the possibility of engraving it in relief on the end of a piece of steel having a square area of one-sixth of an inch. Yet such an actual type was cast from a matrix struck by a hardened steel punch having the Lord's Prayer engraved in relief upon its end. The letters on the punch, and consequently on the type, measure .006 inch from top to bottom and stand up .008 inch from their base. This is, undeniably, a marvelous engraving feat. In the Prince of Wales Museum, Bombay, one can see some specimens of similar skillful work done by hand on rice—usually the name of donors being engraved.

SCIENTISTS FIND FASTER WAY TO RELIEVE COLDS

1. Take 2 Aspirin Tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir 2 aspirin tablets in a glass of water and gargle. This eases the soreness in your throat almost instantly.

Ache and Discomfort Eased Almost Instantly Now

When you have a cold, remember the simple treatment pictured here . . . prescribed by doctors everywhere today as the quick, safe way.

Because of Aspirin's quick-disintegrating property, Aspirin "takes hold"—almost instantly.

Just take Aspirin and drink plenty of water . . . every 2 to 4 hours the first day—less often afterward . . . if throat is sore, use the Aspirin gargle.

But be sure you get ASPIRIN. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet. Aspirin is the trade mark of the Bayer Company, Limited.

DOES NOT HARM THE HEART

Aspirin does not harm the heart.

Leitch To Be Chairman Of The Dominion Marketing Board

Prof. A. A. Leitch, former professor of economics at the Ontario Agricultural College at Guelph, who has accepted the chairmanship of the Dominion marketing board, subject to ratification of the appointment by the Dominion cabinet.

Prof. Leitch is also a prominent tobacco grower.

The Dominion marketing board was established last year to regulate marketing of natural products under the Natural Products Marketing Act. Dr. George S. H. Barton, deputy minister of agriculture, chairman since the board was formed, has asked to be relieved of his duties.

Arena For Olympic Games

Men Working Constantly On Sports Ground In Germany

The vast sports ground and arena in West Berlin, where men are working day and night to have everything ready for the next Olympic Games, has been officially given the name of "Fechtershof," which has been preferred to the one which signified "Olympia-Town." Streets leading up to the arena are all being renamed. Certain peaceful residents will in future find themselves living in "Fighting Arena Avenue," and dignified thoroughfares will also show in their new nomenclature the great importance attached to the new sports ground.

Kept Vow Thirty Years

Andrew Connerton, 80-year-old resident of Flushing, Long Island, is dead, true to his vow, made 30 years ago when his sweetheart jilted him that he never again would appear on Flushing's Main street. He lived within two blocks of the street.

Radium is the most expensive mineral in the world to-day. Its standard value is set at \$90,000 a gram.

Accepts Appointment

Leitch To Be Chairman Of The Dominion Marketing Board

Prof. A. A. Leitch, former professor of economics at the Ontario Agricultural College at Guelph, who has accepted the chairmanship of the Dominion marketing board, subject to ratification of the appointment by the Dominion cabinet.

Prof. Leitch is also a prominent tobacco grower.

The Dominion marketing board was established last year to regulate marketing of natural products under the Natural Products Marketing Act. Dr. George S. H. Barton, deputy minister of agriculture, chairman since the board was formed, has asked to be relieved of his duties.

Within the range of conditions permitting the first flight of bees, light appears to be the most important factor. After about 2:30 p.m., the flight of bees dies off with increasing rapidity, and after 5 p.m. practically all exits of the bees from hives are merely "play flights."

Rip Van Winkle slept for 20 years, but, of course, his neighbors didn't have a radio.

TELL YOU HOW TO COOK 3 VEGETABLES AT ONCE IN THE SAME SAUCEPAN with no odor... less cost... better results

Place each in its own bag made from Canapar Cookery Parchment. You seal in all the mineral salts and flavor, this way . . . and there's no odor, even from cabbage or cauliflower. You need only use ONE burner—turned low.

And vegetables are only one food that can be cooked better with Canapar. For instance, when boiling or steaming fish, all the goodness and flavor are retained—and there's no odor—no sticky pots and pans to scour. This alone makes Canapar worth using.

Remember that Canapar won't absorb odors. You rinse it off—hang it up to dry and use it repeatedly. Try it as a dish cloth, especially for glasses—it does not shed lint.

CANADA DEPRIVED OF LABOR SEAT HELD AT GENEVA

Geneva.—The United States and Russia were voted into the governing body of the international labor office while Canada and Belgium, who up to the present held seats, were given the right to sit as deputy members of the governing body until the next election in 1937.

The new set-up was determined at a closed meeting of the governing body. The members voted 24 to one that the eight leading industrial nations of the world were: The United States, France, Germany, Great Britain, India, Italy, Japan and Russia. Three members abstained from voting. The single opposition vote was cast by Canada.

When the international labor office was established, provision was made that the eight leading industrial countries of the world should each have one member on the governing body and that only those eight should have voting powers.

W. A. Riddell, the Canadian representative, expressed Canada's firm opposition to the procedure. He served the right to consult with the Dominion as to whether an appeal should be made against the decision to the council of the League of Nations.

If the Canadian government exercises this right, the question will come before the council. It was contended on behalf of Canada that she should be ranked sixth.

Unemployment Insurance

Advisory Committee And Boards Of References To Administer The Act

Ottawa.—One problem the government will face in setting up the machinery for its unemployment insurance legislation will be selection of personnel for the commission to administer the act, the advisory committee and boards of referees.

Labor and employers will be represented equally on all bodies, and selection of these representatives will have to be made in accordance with the clauses concerned. It is understood the commission will be as far as possible, with responsible executives of the organizations of labor and industry concerned. All appointments will be made by the government-in-council. In the case of boards of referees panels will be drawn up in every district. Personnel will be drawn from them as and when required. Also in each district one person shall be named as chairman to act whenever a board of referees is required to function.

Only the unemployment and social insurance commission will work full time and at fixed salaries. The advisory committee and referees will act when required and will receive compensation and expenses.

Wants Meeting Of Mayors

Would Have Gathering In Montreal To Discuss Relief Problem

Montreal.—If plans of Mayor Camille Houde materialize, mayors of all Canadian municipalities will convene in Montreal shortly for a two-day meeting before proceeding to Ottawa with the premiers of the various provinces to urge the Dominion government to assume half the cost of direct unemployment relief, the provinces to share the other half.

Previously Mayor Houde had planned to call the meeting in Ottawa. Reported declaration of Premier R. B. Bennett that the municipalities must deal with the Dominion government through their provincial governments necessitated the change in plans, Mayor Houde explained.

Chairman Of Bank Board

Graham Towers Was Chosen As Head Of Directors

Ottawa.—The first meeting of the newly-elected board of directors of the Bank of Canada chose the governor of the bank, Graham Ford Towers, as chairman of the board, and Thomas Bradshaw, executive director.

As executive director, Mr. Bradshaw will be a member of the executive committee. The other members of the executive are the vice-governor, deputy governor, J. A. C. Osborne, and Deputy Minister of Finance W. C. Clark.

B.C. Floods

Long Time Yet Before Flood Waters Subside

Vancouver.—Although at least two months will probably elapse before flood waters are pumped from the inundated Sumas prairie, the Fraser valley as a whole was slowly returning to normal.

Water on the prairie was reported as high as ever and Chilliwack district was still without electric power, but interior services were resumed as far as Abbotsford and with the exception of Agassiz telephone communication has been restored to all parts of the valley.

The situation on the prairie will not be changed until the 400-foot break in the Sumas river dyke is repaired. Pumps were working to capacity and water was running rapidly through the flood gates into the Fraser river.

Another big slide has been reported at Kilgore, where two persons lost their lives in a slide, and it is feared further slides may occur. Families driven from their homes there were being housed at Abbotsford. Other settlers driven from their homes in the lower Fraser valley were returning as flood waters subsided.

Economic Planning

Economic Council To Be Established For Canada Soon

Ottawa.—Legislation establishing a national economic council will be introduced in the House of Commons soon after the royal commission on man's buying makes its report. Premier R. B. Bennett made the announcement in the house.

Alfred Speakman, United Farm member for Red Deer, prompted the prime minister's statement when he proposed a resolution urging national economic planning. It would have committed the house to the principle of substituting scientific treatment of economic problems for "the present practice of uncontrolled competition and unguided individual effort." He envisioned a vast economic laboratory where social problems replaced test tubes.

After two Toronto Conservatives, John R. MacNicol and T. L. Church, supported the Speakman resolution, it was withdrawn at the suggestion of the prime minister who pointed to the forecast in the throne speech that an economic council would be established.

Map Army Advancing

Heavy Fighting Is Reported In Mongolian Territory

Tokyo.—Heavy fighting in which Japanese regular soldiers played a decisive role broke out in bitter sub-zero weather on the disputed frontier between Outer Mongolia, which Tokyo asserts is under the domination of Soviet Russia, adjoins Manchukuo.

A brief despatch from Hsinking, the capital of the state which Moscow and the capitals of the other powers consider a creation and protectorate of the Japanese army, described for the Rengo (Japanese) Agency the advance of an expedition of Japanese and Manchukuoan cavalry into the area.

They were pushing their mounts over the frozen steppes of wild Mongolian territory, said the despatch, in temperatures of 30 below zero. It was in this same advance that they attacked and captured Kalkha Miao, driving the Mongols before them.

Japanese general headquarters at Hsinking frankly announced the participation of Japanese in the expedition. They said its object was to "expel invading Mongols from Manchukuo territory."

Missing Airmen Safe

B.C. Pilot Has Been Found At McLeod Lake

Vancouver.—Pilot R. L. "Ginger" Coote of Quesnel, B.C., unreported since he took off Jan. 18 for Finlay Forks to pick up an injured prospector, was reported safe by Pilot Gil McLaren of Prince George, who flew in search of the missing airmen.

News that Coote had been discovered safe at McLeod Lake, approximately half way between Quesnel and Finlay Forks, was relayed here from Prince George. No details have been received but it was understood Coote would be able to fly his own plane back to Quesnel.

Woman Journalist Dead

Ottawa.—Former member of the parliamentary press gallery at Ottawa and one of Canada's outstanding women journalists, Mrs. Genevieve Lipsett Skinner died in hospital here after a lengthy illness.

Senate Defeats Protocol

Majority Vote Against United States Joining World Court

Washington.—Despite a marked concession by the administration and direct pressure from the White House, the senate sent down to defeat the protocol for United States adherence to the world court.

The vote was 52 for the resolution of ratification to 36 against. This included seven votes of the required two-thirds of those present for approval.

Coming after three weeks of torrid debate, and with tension plainly marked across the floor and galleries of the senate chamber, the vote stood as perhaps the most surprising twist of the present session.

Friends and foes of adherence at once declared the senate's rejection would mean the court issue, which has been before the senate at intervals for 12 years, is dead for some time to come, if not permanently.

FARMER DEBTOR IS PROTECTED FOR A 90-DAY PERIOD

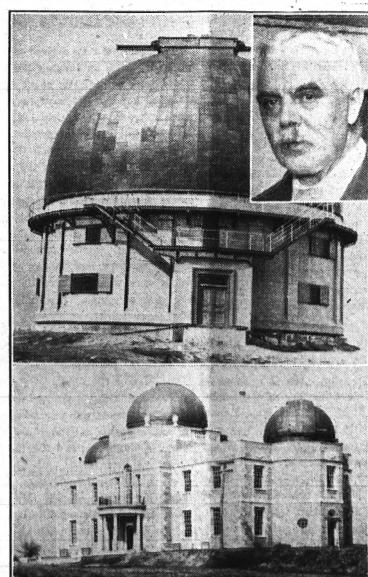

Ottawa.—Steps were taken by Hon. E. N. Rhodes, finance minister, to strengthen the farmers' creditor arrangement act passed at the last session of parliament and now operating in every province in the Dominion.

Amendments proposed would extend the period during which a creditor applying for composition of his debts would be immune from prosecution by his creditors would permit the appointment of temporary members of provincial boards of review to act in the event of incapacity of a permanent member, including the chief commissioner, and authorize appointment of one or more members of a provincial board to investigate and report on any circumstance affecting a debt composition scheme not acceptable to debtor or creditor.

Under the original act a debtor who sought composition of his obligations was immune from any prosecution by his creditors until the application had been dealt with for a period of 60 days. Because of the pressure of applicants it was decided to extend the period to 90 days, with further extension by the court if it were deemed advisable.

Because provisions of the act required all acts of provincial boards must be by the full membership of the boards, it was decided to amend the statute that an ad hoc committee could be selected to act in the event of a permanent commissioner becoming incapacitated or otherwise prevented from attending.

CANADA'S MILLION-DOLLAR OBSERVATORY OPENS IN MAY

The new Dunlap observatory, which has been erected at Richmond Hill Ontario, is to be formally opened on May 31, 1935, when many prominent scientists will be present. Among the astronomers who will take part in the opening ceremonies will be Sir Frank Dyson, former Astronomer Royal. Our pictures above show parts of the imposing observatory which will be one of the most modern of its kind in the world. (Inset) Sir Frank Dyson.

SIR FRANCIS FLOUD

Russia Prepared For War

Red Army Has Been Increased To 940,000 Men

Moscow.—A roar of applause went up from 2,500 Communist threats as the vice-commissar for defense told the seventh all-union congress of Soviets that the last four years have seen the Red army grow from 600,000 to 940,000 men.

"War is being intensively prepared against us," Mikhail Tuchachevsky, the vice-commissar, told the delegates gathered from all the vast stretches of the Soviet Union to review Bolshevik progress since the sixth congress in 1931.

"But to our enemies try our borders," he added, defiantly, "and the strength of our army under the command of Voroshiloff" (Klement Voroshiloff, commissar for defense.)

Aviation, Tuchachevsky told the delegates, has been increased 330 per cent in the last four years.

Giving no figures but using percentages to illustrate their increase, the vice-commissar also listed these gains:

Light tanks, 760 per cent.

Medium-sized tanks, 790 per cent.

Submarine, 485 per cent.

Machine-gun, 700 per cent.

Heavy artillery and ammunition, he said, has been greatly increased and improved.

Fortifications along the eastern and western frontiers have been strengthened, the vice-commissar said.

Protest From Canada

Dominion Unwilling To Give Place At Geneva To Russia

Ottawa.—Canada's representatives at Geneva have been instructed to make every effort to retain the Dominion's seat on the governing body of the international labor office, it was stated here. Several exchanges of communications have passed between Ottawa and Geneva.

Minister of Labor W. A. Gordon said the Dominion could be deprived of its seat only by orders of the League of Nations, and he intimated there was no possibility of this country voluntarily stepping aside in favor of Russia. In the event of a summary order issuing from the League itself, calling upon Canada to yield up its seat, it is understood a long notice would have to be given.

SIAM'S KING TO ABDICATE

Report States He Will Not Return To Country

Singapore.—King Prajadhipok of Siam has decided to carry out his idea of abdication, and will not return to his country, it was reported by a reliable source.

A prince, not yet of age, whose name was not learned, is to be crowned in his place and will rule under a council of regents.

London, Ont.—The \$30,000 kidnapping of a London brewer, Charles Burns, former president of Canada's brewery, kept veiled in police secrecy for more than two years, was brought to light following mentioning of it during the trial of David Meisner, charged with the kidnapping of John S. Labatt last August for \$150,000 which was not collected.

While Inspector Cousins of the Ontario provincial police was on the witness stand, J. C. Newson, crown prosecutor, mentioned in remarks to presiding Mr. Justice G. F. McFarlane that Burns had been kidnapped.

The words meant nothing to persons at the trial of Meisner on what had been considered Canada's first ransom kidnapping.

"Quizzed later, acting Crown Attorney Norman Newton had referred to Mr. Burns, kidnapped two years ago while the brewer was driving from south London to his home on Richmond street, main London artery.

It was about 1 A.M., when he was approaching the Ridout street bridge, that another car drove up and crowded him to the curb. Three men were said to have forced Burns from his car and driven him over Wimpole to a place where they held him as negotiations were made to collect \$30,000, threatening death to their captive if the money was not paid.

Burns was driven back to London at the end of a week, to the corner of Dundas and Richmond street, where he was allowed to go to the bank and obtain from the manager \$30,000. The ransom money was wrapped in a package and handed to the abductors in front of a cigar store within sight of more than a dozen persons.

Mr. Burns had sold his interest in the brewery a short time before he was abducted.

Police investigated the crime but found no trace of the \$30,000.

Shortly after he was released, Mr. Burns left London to take up residence in Montreal.

TO ESTABLISH TELEVISION IN BRITAIN THIS YEAR

London.—The establishment of television on a country-wide basis was brought a step nearer as announcement was made in the House of Commons that the government approved the report of a committee which has investigated this scientific invention.

Sir Kingsley Wood, postmaster general, said that the British Broadcasting Corporation would be entrusted with the task of broadcasting television and would make a substantial contribution to the inauguration of this service.

Aviation, Tuchachevsky told the delegates, has been increased 330 per cent in the last four years.

Giving no figures but using percentages to illustrate their increase, the vice-commissar also listed these gains:

Light tanks, 760 per cent.

Medium-sized tanks, 790 per cent.

Submarine, 485 per cent.

Machine-gun, 700 per cent.

Heavy artillery and ammunition, he said, has been greatly increased and improved.

Fortifications along the eastern and western frontiers have been strengthened, the vice-commissar said.

The estimated cost of the service until the end of 1936, when the present charter of the B.B.C. expires, would be \$900,000, which would be borne by the present revenue from broadcasting, Sir Kingsley said.

Study Drouth Problem

Engineering Institute Of Canada To Examine Situation

Toronto.—The drouth problem in Western Canada will be examined by experts when the Engineering Institute of Canada holds its annual convention here, Feb. 7. A series of papers is down for presentation on this and allied subjects.

Among those who will discuss the water famine are: C. T. Johnson, director, Dominion water power bureau, Ottawa; John Patterson, director, meteorological service of Canada, Toronto; T. C. Main, Winnipeg; and P. C. Perry, Regina, both Canadian National Railways authorities on prairie conditions; W. Calder, department of lands of the Alberta government, Edmonton; W. A. Johnston, H. T. Wickenden and D. G. Maddox, Dominion government geologists, Ottawa.

F. P. Shearwood, retiring president, will deliver his presidential address to the institute on Feb. 7 when he will speak on the necessity for a wider use of aesthetic designs in bridge building.

Ready For Speed Test

Sir Malcolm Campbell Arrives With Rebuilt Blue Bird

New York.—Sir Malcolm Campbell, prince of speed, has come back to the United States with a hope of 300 miles an hour over Daytona Beach's golden sands resting in his crated, seven-ton Juggernaut Bluebird, and the feeling this perhaps was his last chance with racing death.

"Theoretically she's faster than my old record of 272.103," he said. "I can't say more. But I will be satisfied with 300 miles an hour."

The slim Englishman, in his 50th year, knighted after he set a former record at Daytona Beach in 1931, has every confidence his entirely rebuilt monster will eclipse any speed man ever before accomplished on land.

Tentatively the time for Sir Malcolm's newest attempt on the land speed record has been set for between Feb. 14 and 20. He left for Daytona with Lady Campbell and his 11-year-old daughter, Jean, who arrived with him on the Aquitania.

Bridge Contract Is Let

Ottawa.—Contract for construction of a bridge across the Cascade river on the Calgary-Banff highway, authorized under the Public Works Act of 1934, was awarded Buchan Construction Company, Calgary, at a cost of \$15,885, it was revealed in an order-in-council tabled in the House of Commons by Minister of the Interior T. G. Murphy.

Head Of Underwriters

Winnipeg.—J. F. McQueen, Saskatchewan, was elected chairman of the Canadian Hail Underwriters' Association at the annual meeting here. John Wilson, Winnipeg, was elected vice-chairman. Directors included G. A. Hewitt and F. L. Thornton of Regina.

Mrs. A. Gibeau is at present on an extended visit with friends in Kimberley.

Robin appeared at Green Bay, M'ye Lake, last week. They were noticed in Cranbrook a day or two later.

Since "Poor Charlie's" straw ride was hit by fire, it will not be necessary to draw material in from the prairie for the Social Credit test vote.

Coleman coal mines have secured large coal orders that make necessary the taking on of quite a number of extra men.

Mr. and Mrs. Harry Clements and their son and daughter, of Pincher Creek, were visitors to Blairmore last night.

Mayor Forster has said "farewell" after serving as mayor and councilor of Wainwright continuously for sixteen years.

Thomas Simms, of Fernie, who is recovering from a long siege of illness, was a visitor to Blairmore on Tuesday.

Mrs. Alice Trites, wife of A. B. Trites, of the Trites-Wood Co., died at Vancouver on January the 30th.

Mrs. Trites was one of Fernie's pioneers, coming there from Macleod in the latter part of 1898.

Blairmore's complete slate for mayor, councillors and school trustees were returned by acclamation. At Coleman fourteen candidates are contesting six vacancies through an election to be held Monday next.

Mrs. Gaston Basille succeeds Mr. S. G. Bannan as member of the Blairmore Board of School Trustees. We must state the reports in the daily press, claiming that this is the first time in the history of Blairmore that a woman has been elected to such position, for Mrs. P. M. Christophers served as member of the board here for several years.

The town of Claresholm voted slightly better than 75 per cent for Social Credit by a straw vote recently taken. Commenting on the vote, the Claresholm Local Press remarks: "Social Credit has the promise of promise, but we can't see that it is promising much more than Bennett did at the last election, and what King will do for the coming election.

Blairmore citizens are content with the "status quo" on their council and school board, in fact the Moderates must have given up the ghost, for their only representative, S. G. Bannan, did not contest again for the school trustees. All are now "Workers Candidates," or "All Red." Well, people get the type of government they deserve, therefore it is presumed Blairmore is content.—Coleman Journal.

David J. Grier passed away at Macleod on Friday afternoon last, at the age of 78 years. Mr. Grier came to Macleod as a member of the second contingent of the North West Mounted Police in 1877. He was mayor of Macleod for 12 years, and was one of the first, if not the first farmer in the province. He was an ex-newspaper publisher and was a partner of the firm of Swinerton & Grier, owners of the three Macleod hotels. The remains were laid to rest on Sunday afternoon.

SPEECH FROM THE THROWN

A few nights ago, two men got into a hot argument over Social Credit. To settle matters definitely, one threw the other into the gutter, where he laid for about an hour and preached Woodsworthism.

NO RUST—No dust. Use Nonsuch Stove Polish and Floor Wax. J17-1t

No lives have been lost since social credits hit Blairmore.

The eyes of the whole world are focussed on the great "world-wide revolution" to take place in Blairmore.

S. J. Lamey, of Bellevue, was a visitor to Calgary this week, attending a convention of representatives of the London Life Assurance Co.

"Louie," looking forward to benefits from Social Credit, today had seventeen pockets built on his 1927 model sweater, each of the \$2.5 capacity.

A. L. Walkin, former government vendor at Coleman, recently underwent an operation for appendicitis at High River.

The Macleod federal constituency Conservative Association convention will be held at Macleod on March 13, to nominate a candidate for the Dominion election.

Boys and girls in One Tong, Java, Solomon Islands, are pledged to each other. A boy must turn over all his fish catches to his sweetheart's parents.

At the recent Crows' Nest Pass Curling Association bonspiel at Cranbrook, the Grand Challenge trophy went to W. Kerr's rink, of Bellevue. The Trites-Wood trophy to Sam Moore's rink, Coleman.

The premises of the local B.E.S.L. were entered last night, and goods and cash to the value of upwards of sixty dollars was taken. The police have the matter in hand and an early arrest is expected.

Grammar classes in gaelic have been started in the schools of the Maritime Provinces for the purpose of preserving the language. George says gaelic and the saxaphone go hand in hand for popularity.

The regular meeting of Crows' Nest Chapter of the I.O.D.E. will be held at the home of Mrs. H. Pinkney on Monday next, February the 11th, at 7:30 p.m. Business, election of officers. This meeting will be preceded by an executive meeting at 7:15.

Tom Uphill, M.P.P., arrived in Fernie from Russia on January the 31st. He is quite enthusiastic about conditions in Russia. He says they are much better than he anticipated. The food is not so good in that country.

It is in England or Canada, but there seems to be plenty of it for the working men and they are much bigger eaters than Canadians. He visited many industrial centres and factories, and was surprised at the industrial growth. One textile factory employed 16,200 persons, 90 per cent of whom were women. Even the manager was a woman. (Probably the men never work).

CARD OF THANKS

Members of the family of the late Mr. John C. Crosbie desire to thank the many friends who on various occasions rendered assistance to their father in his illness; and also the following pallbearers: Thomas Hughes (Beaver Mines), Daniel Rees, John Baird, Jr., Samuel Ennis, Marshall Hamilton and Fungmali. The following floral tributes are also acknowledged: The Family, pillow; Mr. and Mrs. H. McVicar (Hillcrest), Mr. T. Hughes, Mr. and Mrs. D. Rees and Donald, Mr. and Mrs. R. W. Harold Pinkney, Mrs. S. Ennis and Elaine, Mr. Walter Fisher and Edna, Mr. Samuel Ennis, Mr. and Mrs. J. Baird and family; Mrs. Paul Webb, Mrs. James Proudfoot, Mrs. S. L. Clark and Mr. J. S. H. Smith, Edmonton.

The town of Macleod had an actual cash surplus at the end of 1934 of \$5,871.65. The debenture indebtedness of the town is \$488,373.60.

The Golden Key group of the United church will hold a tea and sale on Saturday, February 16th, from 3 to 6 p.m.

Hezekiah A. Bryant, of Fernie, has been appointed stipendiary magistrate, deputy district registrar of the supreme court and deputy registrar of the county court.

The Ladies' Aid of the Hillcrest United church are holding a Valentine tea on Saturday, February the 9th, at from 2 to 6 p.m. in the church. Home cooking and surprise packages will be sold. Everybody welcome.

A very nicely arranged party was held at the home of Mr. and Mrs. H. Carmichael last week in honor of Mrs. J. Higgins. Whist took up the greater part of the evening, after which a dainty luncheon was served. After luncheon the remainder of the evening was spent in playing bingo. Everyone present reported a very enjoyable evening.
